Resolution brings more rugby heavyweights on board

Johannesburg – Resolution Health Medical Scheme has formed a joint marketing partnership with two rugby heavyweights, bringing to four the total number of leading South African rugby teams to which the medical scheme provides preferred healthcare for players.

With the recent addition of Vodacom WP to the partnership which already exists between Resolution and the Blue Bulls and Cheetahs respectively, the Scheme prides itself in ensuring the medical care of what are some of the leading rugby teams in South Africa.

“Resolution is committed to the maintenance and promotion of a healthy and active lifestyle for all our members, and it is thus a privilege to be able to ensure that we are in a position to assist our local and international rugby heroes to perform at their peak at all times”, said Bennie de Beer, Managing Director of Resolution. De Beer commented that Resolution provided all teams involved with quality medical support and services and that while the Scheme assisted in providing the tools to enable the teams to win, the players were the one’s providing the talent. “We look forward to an exciting year for rugby in 2009 and assure all our teams that should the need arise, they can count on Resolution to be there for all their appropriate medical needs”, he added.
