Resolution – proud medical sponsor of Super 14 Champions

Johannesburg – Resolution Health Medical Scheme will be integrally involved behind the scenes in the upcoming clash of the Super 14 champions in the Super14 final on Saturday 29 May 2010. As proud medical sponsor for both the Vodacom Bulls and the Vodacom Stormers, Resolution Health plays an intensive role in keeping our national heroes fit and healthy.

Resolution Health is the preferred medical scheme of the Bulls and the Stormers and provides the teams with a capitation model which offers them access to the excellent medical benefits of the Scheme. Together with the Team doctors, Resolution Health provides support to the players for their day-to-day and sport related needs.

“I have found Resolution to be extremely helpful and supportive. Service levels are very good and players are satisfied with the cover,” said Dr Ryan Kohler, team doctor for the Western Province and Vodacom Stormers teams.

“Resolution’s involvement makes dealing with injuries and their rehabilitation effortless. The players have peace of mind and medical cover is never a headache”, said Dr Org Strauss, team doctor for the Vodacom Blue Bulls.

“Resolution Health Medical Scheme is focused on the promotion of a healthy and active lifestyle amongst our members.” said Mark Arnold, Principal Officer of the Scheme. “We are proud rugby and sports supporters and are committed to ensuring your favourites are always match ready. We are able to work with the teams, medical officers and players to ensure they can give their best on the field at all times.”
